

Third day

Friday we woke up at 7 and went to meet with the mayor in the city hall. After that we waited 25 minutes for a bus to take us for the journey to Slavonski Brod. We talked with a university professor who was very joyful. The professor talked about mechanical engineering and why it is important in our life's.

By the way He mentioned topics like chess, music and software. We went for lunch at 13.00 which was great. For lunch we had vegetable soup, chicken, and potatoes. We all were surprised when we saw the cake for Ken's birthday. After that we walked around the city for a while and we went to the museum of tambura.

In the museum we learned about tambura's history and construction in time. We went to Požega and some of us went for some coffee and others went to the hotel to get some rest.
