## Which skills you learned during mobility?

Communication, working in groups

The skills I learned this week are many. I learned to communicate with young people from different countries, piloted a drone, create timelines and above all to work as a team among us. I learned how to work in a great combination with big or small groups.

in this mobility to Croatia/Pozega I learned things about internet security and how we can use internet more useful and safer and more things :)

The importance of the using the internet safely and the necessity of the technical abilities

We had a lot of experiences this week: the treasure hunt, the presentation with the Tiki Toki program, the experiences at the museums, the internet security where we dealt with a very serious problem, that of cyberbullying, we saw the town hall of the city and met the mayor and finally we flew the drones. This last experience was my favorite, as I had never commanded a drone before.

I learned about Požega culture, how to make timelapse videos, and how to draw a drone

Digital skills and communication, cultural and learning

Language skills

Communication

Using Internet skills, communication, english...

Fly drones

How to communicate different people

A lot

Croatia best country

I learnt internet security

### **Suggestions for next meeting**

Just stay positive!

Nobody

Nothing

I don't know

More work in groups

More tourist attractions

We don't have to get up so early.

Everything was good

Same

I don't have any specific suggestions

Nothing
